

WMSTR Worker Campground Regulations

1. All campers must be registered and display a valid “Camper Permit”. Permit must be displayed to be visible as you would walk by on the road or path near the camper.

2. Any applicant for a camp site must have been an “Active Member” for a minimum of 3 years or an “Exhibitor/Worker” for a minimum of 2 years.

Each campsite requires at least one “Active Member” or “Exhibitor/Worker”. This person will be considered the “Primary Camper” and is RESPONSIBLE FOR MAINTAINING THE SITE AND MAKING SURE THE CAMPGROUND RULES ARE FOLLOWED!

3. Permit types:

40 hour permit-camper stays on the grounds for over 30 days. 8 hour permit-camper stays on the grounds 30 days or less. Temporary permit-camper stays on the grounds 4 days or less.

4. Recording of hours according to permit requirements:

All campsites must have hours logged to satisfy their work requirements. Hours can be logged for 12 months starting the Thursday morning prior to the show and ending the Wednesday night before the following show.

Hours worked during the four days of the show cannot be logged for credit. Campers are responsible for reporting their work hours on forms available at the Administration building.

Failure to satisfy work requirements results in a written notice that you failed to meet the annual requirement, if you fail to meet the requirements for 2 consecutive years you will be required to vacate the campsite by June 1st the following year. If you have “extra” hours you may log them for another camper by putting the camper name and number on the reporting sheet.

5. Acceptable Work:

Work on a budgeted project, building and grounds maintenance, etc are acceptable work hours. Work on projects at home or elsewhere for WMSTR can also be logged. Work on your own equipment or exhibit does not count as approved work!!

6. Requesting a campsite:

Board approval must be given before moving into a campsite. The mayor of the campground you want to be in will determine if there is room and will have to approve it before the Board will approve it. State type, size and proposed location of your camper in writing. If there is no space available your name will be placed on the waiting list for that campground and you will be notified when a spot is available.

7. Size and type of campers allowed:

Only currently licensed and manufactured type RV campers will be allowed to move into the campgrounds. No RV in excess of 35 feet in length will be allowed. This size limit applies to all campers left over 30 days.

Converted buses, small buildings, etc will no longer be allowed to move in to any campground.

No type of permanent foundation or structure will be allowed, whether freestanding or attached to an RV.

8. Campsite ownership:

WMSTR owns the campsite, not the registered camper. Selling a camper does not entitle the buyer to the campsite. The buyer must meet all requirements stated in the campground rules and apply for a camping permit in order to get a campsite. Members on the waiting list will take priority over buyers. **DO NOT PURCHASE A CAMPER ASSUMING IT CAN STAY WHERE IT IS. CAMPSITES ARE GIVEN TO ACTIVE MEMBERS, NOT WHAT IS PARKED ON THE SITE!**

Existing campers and sites can be passed on to a spouse. Children of the couple will have rights to the site if they meet the requirements as stated in the rules. This includes updating to an RV if the current camper does not meet requirements.

9. Replacing, Relocating or Vacating a site:

Replacing your current camper with another camper or moving your camper to another location must first be approved by your mayor and then submitted to the board for approval. No changes can be made without final board approval.

If you decide to give up your campsite for any reason notify the mayor in writing and date and sign your letter. This will allow us to fill that spot with the first person on the waiting list.

10. Waste Water:

No gray water or sewer discharge may be made onto or into the ground. All campers using water must have on-board sewage containment systems and agree to haul away and dispose of properly. **THIS INCLUDES “GRAY WATER!”**

11. Fire:

All fire lanes must remain open at all times, wide enough to permit a fire truck or other emergency vehicles to easily maneuver.

All campfires must be contained in an above ground metal fire ring furnished by the camper. The ring must be at least 6” high with a maximum diameter of 42” Only traditional firewood or scrap lumber cut to the proper length for your fire ring may be burned. A minimum distance of 48” is required between the fire ring and any camper, tent or structure. Use common sense and be aware of wind and weather when burning. Fires are limited to between 5pm and 2am the following morning unless used at meal times to cook.

12. Maintenance:

You are responsible for maintaining your campsite. This includes garbage, grass mowing and the general appearance. Each campsite must be cleaned up by 9am each morning.

13. Vehicles:

NO VEHICLES (EXCEPT HANDICAPPED) ALLOWED IN THE CAMPGROUNDS DURING SHOW-TIME. THEY MUST BE PARKED IN DESIGNATED AREAS OUTSIDE OF THE CAMPGROUND!

14. All dogs must be on a leash at all times in the campgrounds. No dogs allowed on showground exhibit areas.

15. Conduct:

The primary camper listed for that site is RESPONSIBLE for that site and what occurs there. If there is a problem, the primary camper will be approached about the concern to try to resolve it. Be courteous and use common sense to avoid problems. If you have a concern bring it to your mayor first, if it can not be resolved it will be brought to the board of directors to resolve.

16. CAMPING AT ROLLAG IS A PRIVILEGE, NOT A RIGHT!
